

MOHD SAHIL

Front-End Developer | Flutter Developer

sahil.siddiqui.dev0@gmail.com | +91 7985184803 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Dart, C++, Python, C

Frontend: HTML5, CSS3, Responsive Design, Flexbox, CSS Grid, SEO Optimization

Backend: Node.js, Express.js, MongoDB, RESTful APIs

Mobile: Flutter, Dart, Android Studio, Cross-platform UI Development

Cloud & DevOps: AWS (EC2, S3, IAM, VPC) — Cloud Practitioner Certified, Linux (RHEL), Bash Scripting

Dev Tools: Git, GitHub, GitHub Pages, VS Code, npm

PROJECTS

Personal Portfolio Website — React · Next.js · TypeScript [\[GitHub\]](#) [\[Live\]](#) May 2026

- Engineered a fully responsive personal portfolio using Next.js 16 (App Router) with React 19, TypeScript, and Tailwind CSS v4, following a mobile-first design approach with optimized performance and semantic HTML5 markup.
- Integrated on-page SEO best practices — structured metadata API, canonical URLs, and server-side rendering — to maximize search engine visibility and achieve fast Core Web Vitals scores.
- Managed the complete development lifecycle independently, leveraging continuous Git-based version control and modern CI/CD deployment pipelines for seamless production updates.

Stride — To-Do App — Flutter · Dart [\[GitHub\]](#) Apr 2026

- Developed a cross-platform mobile app using Flutter and Dart with a minimalist UI; implemented real-time task addition with instant widget re-renders for a snappy UX.
- Built a swipe-to-delete gesture using Flutter's Dismissible widget — enabling fast, intuitive task management without additional taps or navigation.
- Structured app state with Flutter's setState pattern, ensuring reactive UI updates and clean separation between data and presentation layers.

Sundarban Adventure Website — HTML5 · CSS3 · Vanilla JavaScript [\[GitHub\]](#) [\[Live\]](#) Mar 2026

- Built a zero-dependency, multi-section travel booking platform (Hero, Packages, Itinerary, Gallery, Reviews) using semantic HTML5 and modular CSS3 for clear visual hierarchy.
- Implemented full mobile responsiveness via CSS3 media queries and Flexbox/Grid; deployed on GitHub Pages with end-to-end Git version control.
- Applied DOM manipulation with vanilla JavaScript for interactive UI elements — zero frameworks, demonstrating core front-end fundamentals.

EDUCATION

B.Tech. — Computer Science & Engineering Aug 2024 – May 2028

KIET Group of Institutions (Deemed University), Ghaziabad | CGPA: 7.33 / 10.0

12th — Golden Flower Public School 2023

Percentage: 82%

10th — Delhi Public World School 2021

Percentage: 81%

CERTIFICATIONS

AWS Certified Cloud Practitioner — Amazon Web Services Feb 2026 [Verify](#)

Validates foundational cloud knowledge: EC2, S3, IAM, VPC, IaaS/PaaS/SaaS, security & pricing models.

Red Hat: Linux Fundamentals (RH104) — Red Hat Training Nov 2025 [Verify](#)

Covers RHEL file system navigation, user/group permissions, Bash shell scripting & system administration basics.
