

Mohd Sahil

Front-End Developer | Flutter Developer | Fresher

sahil.siddiqui.dev0@gmail.com | +91 7985184803 | Ghaziabad, Uttar Pradesh, India | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

TECHNICAL SKILLS

Languages:	C, C++, JavaScript (JS), Python, Dart
Frontend:	HTML5, CSS3, React.js, Next.js, Flutter
Cloud (AWS):	EC2, S3, IAM, VPC — Cloud Practitioner Certified
OS & Shell:	Linux (RHEL), Windows, Bash Shell Scripting
Dev Tools:	Git, GitHub, GitHub Pages, VS Code, npm, Android Studio
PROJECTS	

Stride — A Todo App — Flutter, Dart [\[GitHub\]](#)

- Built a minimalist To-do app using Flutter and Dart with a clean, minimalistic UI focused on simplicity and usability.
- Implemented swipe-to-delete gesture for removing tasks, enabling fast and intuitive task management without extra taps.
- Designed real-time task addition with instant UI updates — tasks appear immediately upon entry, keeping the experience snappy and responsive.

Personal Portfolio Website — HTML, CSS, JavaScript [\[GitHub\]](#) [\[Live\]](#)

- Designed, developed, and deployed a fully responsive personal portfolio website using **HTML5, CSS3, and vanilla JavaScript**, demonstrating end-to-end project ownership from design to production.
- Implemented SEO best practices including semantic HTML structure, optimized meta tags, and performance-focused architecture to improve search engine visibility and page load speed.
- Applied mobile-first responsive design using CSS3 Flexbox and Grid with custom domain, maintained via continuous Git-based version control.

Tour Booking Website — HTML5, CSS3, Vanilla JavaScript [\[GitHub\]](#) [\[Live\]](#)

- Developed a multi-section travel and hotel booking front-end platform from scratch using HTML5, CSS3, and Vanilla JavaScript with zero external dependencies.
- Created 3+ interactive page sections — Hero, About, Packages, Itinerary, Gallery, Review — enhancing UI clarity and visual hierarchy.
- Applied CSS3 media queries to achieve full mobile responsiveness across all major screen sizes and browsers.
- Hosted on GitHub Pages and managed full development lifecycle using Git version control.

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science and Engineering

KIET Group of Institutions (Deemed to be University), Ghaziabad, UP, India | [Aug 2024 – May 2028](#) | [CGPA: 7.31 / 10.0](#)

- Relevant Coursework: Data Structures & Algorithms, Computer Networks, Data Analytics, OOP, Operating Systems, DBMS.
- Currently in Semester 4 (Second Year) — consistent academic performance with 7.31 CGPA.
- Actively engaged in competitive programming using C++ and self-learning in full-stack web & mobile development (Flutter).

CERTIFICATIONS

AWS Certified Cloud Practitioner • [Amazon Web Services \(AWS\)](#)

[Verify Certificate ↗](#)

Validates foundational knowledge of AWS — EC2, S3, IAM, VPC — and core cloud concepts: IaaS, PaaS, SaaS, security, and pricing.

Red Hat: Getting Started with Linux Fundamentals (RH104) • [Red Hat Training](#)

[Verify Certificate ↗](#)

Completed RHEL training covering file system navigation, user/group permissions, shell scripting, and system administration basics.

Pearson MePro — English Proficiency Level 8 (Advanced) • [Pearson](#)

[Verify Certificate ↗](#)

Achieved Advanced Level 8 — demonstrates strong business communication, technical documentation, and professional collaboration skills.
