

MOHD SAHIL

Front-End Developer | Flutter Developer

sahil.siddiqui.dev0@gmail.com | +91 7985184803 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Dart, C++, Python, C

Frontend: HTML5, CSS3, Responsive Design, Flexbox, CSS Grid, SEO Optimization

Mobile: Flutter, Dart, Android Studio, Cross-platform UI Development

Cloud & DevOps: AWS (EC2, S3, IAM, VPC) — Cloud Practitioner Certified | Linux (RHEL), Bash Scripting

Dev Tools: Git, GitHub, GitHub Pages, VS Code, npm

PROJECTS

Sundarban Adventure Website — *HTML5 · CSS3 · Vanilla JavaScript*

[\[GitHub\]](#) [\[Live\]](#)

- Built a zero-dependency, multi-section travel booking platform (Hero, Packages, Itinerary, Gallery, Reviews) using semantic HTML5 structure and modular CSS3 for clear visual hierarchy and UI clarity.
- Implemented full mobile responsiveness via CSS3 media queries and Flexbox/Grid across all major screen sizes and browsers; deployed on GitHub Pages with end-to-end Git version control.
- Applied DOM manipulation with Vanilla JavaScript for interactive UI elements — zero frameworks, demonstrating core front-end fundamentals.

Personal Portfolio Website — *HTML5 · CSS3 · JavaScript*

[\[GitHub\]](#) [\[Live\]](#)

- Designed and deployed a fully responsive portfolio using mobile-first CSS3 (Flexbox + Grid), achieving optimized page load speed with a custom domain and semantic HTML5 markup.
- Integrated on-page SEO best practices — structured meta tags, canonical URLs, and performance-focused asset loading — to improve search engine visibility.
- Maintained entire development lifecycle independently via continuous Git-based version control and GitHub Pages deployment.

Stride — To-Do App — *Flutter · Dart*

[\[GitHub\]](#)

- Developed a cross-platform mobile app using Flutter and Dart with a minimalist UI focused on usability; implemented real-time task addition with instant widget re-renders for a snappy UX.
- Built swipe-to-delete gesture using Flutter's Dismissible widget — enabling fast, intuitive task management without additional taps or navigation.
- Structured app state with Flutter's setState pattern, ensuring reactive UI updates and clean separation between data and presentation layers.

EDUCATION

B.Tech. — Computer Science & Engineering | KIET Group of Institutions (Deemed University), Ghaziabad | Aug 2024 – May 2028 | CGPA: 7.31 / 10.0

- Relevant Coursework: Data Structures & Algorithms, OOP, DBMS, Computer Networks, Operating Systems, Data Analytics.
- Currently in Semester 4; active in competitive programming (C++) and self-directed full-stack & Flutter development.

CERTIFICATIONS

AWS Certified Cloud Practitioner — Amazon Web Services

[Verify Certificate ↗](#)

Validates foundational cloud knowledge: EC2, S3, IAM, VPC, IaaS/PaaS/SaaS, security & pricing models.

Red Hat: Linux Fundamentals (RH104) — Red Hat Training

[Verify Certificate ↗](#)

Covers RHEL file system navigation, user/group permissions, Bash shell scripting & system administration basics.

Pearson MePro — English Proficiency Level 8 (Advanced) — Pearson

[Verify Certificate ↗](#)

Demonstrates advanced business communication, technical documentation & professional collaboration skills.
